

DOING MORE WITH LESS

WHAT ARE THE BENEFITS?

Budgets don't always align with the needs of your community. Financing allows you to stretch your budget and procure the items your community needs. Waiting for available funds leaves you exposed to increased risk including supply chain woes and the increasing cost of goods.

GET THE EQUIPMENT YOU NEED, WHEN YOU NEED IT

Budgeting for finance payments is infinitely easier than trying to tackle the entire project cost. Financing allows you to complete your entire project, including soft cost all at once rather than phasing which has the added cost of waiting such as rising rates, increases in pricing and incurred maintenance cost.

YOUR COMMUNITIES GROWTH SHOULDN'T BE HINDERED

Communities shouldn't be hindered by budgeting constraints. With a tax-exempt municipal lease, your purchasing power is increased 5-7X allowing you to utilize your current and future budget(s) for the items your community needs today.

FLEXIBLE, CUSTOMIZED SOLUTIONS

NCL brings you increased flexibility with zero down payment requirements, deferred payment options and terms up to 30 years on select items. Each NCL TEML also includes non-appropriation language further relieving budgeting woes as the lease does not count towards your debt limit.

MAINTAIN COMPLIANCE

With stringent debt restrictions many face, our Sourcewell-awarded contract for financing satisfies the competitive solicitation process. Whether your procurement includes cooperative purchasing or a state contract, including NCL creates a competitively-bid turnkey solution.

**BETTER
TOGETHER**
